We allot no more than one hour for each class and a ten-minute transition time. This limits the number of classes that a group can fit in during one day. We are also encouraging the school leaders to play an active role in your students experience at Covenant Harbor. This means getting involved, possibly teaching or leading an activity. We are also limiting the number of evening activities to one activity our staff will lead each night. Big Games may or may not be included as an evening activity. This is to ensure our staff get enough rest and time off to give your students safe and quality experiences during the day.

Please ensure that all your students and staff/parents are aware of the goals for the trip!
